Hello Kiranmayi,

Thank you for the mail. I would like to take this opportunity to thank the sculptors of this success.

This was possible because of the visionary leadership of our MD Sir, Mr. Vepa Kamesam. His constant emphasis and encouragement to aim for this qualification made a big difference. Many thanks to all the faculty members as the classroom lectures laid a solid foundation. They were very supportive throughout this journey. I must thank my classmates for their inputs in the form of "lively discussions". These helped in process of understanding the complex scenarios in a lucid way. Diverse collection of study material makes our library a great resource in itself.

Once again I thank everybody at IIRM and wish IIRM the very best for the future.

Regards,
