Subject: ACII

Dear Sir :

I take the very pleasure to share my joy of success in the ACII UK Examination results published last week (21.12.07) and now I have become the ACII, UK.

I sincerely believe, this all happened due to your kind Mentoring and inputs. You and IIRM played a key role in building my career.

I have been placed in ITGI in April 2006, through Campus Recruitment Programme, from then its been continuous learning in different dimensions of practices in Underwriting, Marketing etc.

I take this opportunity once again to express my sincere gratitude to you and the Faculty IIRM for their kind support & mentoring in achieving all the above feather's in my cap and like to share that even my family is very happy about my success I have received so far in my professional and personal life.

Now becoming an ACII, I have joined the CII's Member group, the world's largest professional body dedicated to the insurance, savings and financial service sector.

The CII qualification will help me to build my global career that is universally recognised as a sign of commitment and professionalism working in insurance and financial service industry providing clear

evidence of educational achievement with enhancement in technical understanding and confidence.

I strongly believe without your support the result wouldn't have been possible so early.

Once again I'll like to thank you for the support and blessings and looking forward in future also.

Thank you for everything.

--

Yours Sincerely
RC.Bharadwaj.Yallapragda
